It is proposed to have a service  
in the Masonic Hall on Easter Sun-  
day afternoon at 3 P.M. The Holy  
Communion will be celebrated at this  
service.  
A. M. Trendell, Vicar, Wainwright.

**ANNUAL LUTHERAN**  
**CAMROSE WEEK**  
July 7 to 14th.  
Camrose, Alberta, March 27.—The  
Young People's Luther League of  
Alberta and the Inner Mission Society  
of Alberta will hold conventions in  
Camrose, the week of July 7 to 14th.  
The three first days will be given over  
to meetings of the Young People's  
League with Rev. Odo Gornitzky, Pro-  
fessor at Lutheran Bible Institute, St.  
Paul, Minn., as the principal speaker.  
The Inner Mission Meetings will oc-  
cure the following days. Rev. A. K.  
Barstad, Radcliffe, Iowa, will deliver  
several inspirational addresses.  
S. A. Empey will be at the King  
Edward Hotel, Viking for ten days, of  
two weeks to take orders for Tailor  
made Clothes. Guaranteed all wool,  
from \$23.75 up. Satisfaction guaran-  
teed or Money Refunded.

## Women's Institute Column

The next meeting of the Irma Women's Institute will be held on Thursday, April 4th at the home of Mrs. S. Mathison instead of Mrs. W. Masson on account of the latter's illness.  
A paper will be given on "Agriculture," by Mrs. W. Stuart. The meeting will start promptly at 3 o'clock and every body will be made welcome.

## W. C. T. U.

**SIR G. B. HUNTER AND DRINK**  
It cannot truthfully be denied that drink injures the whole community. Not only does it increase crime, not only is it one of the great causes of immorality and divorce, but it reduces our industrial and commercial efficiency. I can testify from my own experience that it is so in shipbuilding. It is not true that drink injures only the few. It injures us all, and unless we can get rid of this drain on our health, happiness, and efficiency we shall not regain and retain our leading position in the world competition for national prosperity.

## 5,000 FACTS ABOUT CANADA

The 1929 edition of that popular annual, "5,000 Facts About Canada," edited by Frank Yeigh, the well-known Canadian author and publicist, is now off the press and contains a wealth of material that presents the stirring story of our national progress in crisp, concrete form. Many new features mark this issue, and it is a striking expansion during the ten years since the armistice, as well as the remarkable advance made in the last 12 months' period of "Canada's Best Year." The booklet sells Canada, most effectively, and is widely distributed for that purpose, while it is invaluable to any Canadian who wishes to know his own country. The 50 chapters of contents tell the all-Dominion story in a nut-shell. Copies may be had at 35c from all leading newsdealers or from the Canadian Facts Pub. Co., 888 Huron Street, Toronto.

## W.M.S. MEETING HELD AT RILEY

**UNITED CHURCH W.M.S. PRES-  
BYTERIAL MEETING HELD  
AT RILEY**  
Wainwright Presbyterial meeting, held at Riley, March 21st with Mrs. R. H. McPherson of Holden acting as President and Mrs. A. J. Thorsley of Riley as secretary. The following representatives were present: Mrs. Elford, Mrs. Osterhout, Mrs. Wright and Mrs. Frickleton of Irma; Mrs. Love, Mrs. Steel, Mrs. Knowles and Mrs. Watson of Wainwright; Mrs. Cookson, Mrs. Firth, Mrs. Lr-bekmo, Mrs. Hill, Mrs. Swift, Mrs. Gordon, Mrs. McKeffey, Mrs. Kendall, Mrs. Ferguson, and Mrs. Lee of To-field; Mrs. F. J. Stauffer of Jarrov; Rev. and Mrs. R. H. McPherson of Holden; Rev. Boishnigh of Mr. Campbell of Viking; Mrs. E. G. Fobes local president, members of the Auxiliary and others in sympathy with W. M. S. work.

Three sessions were held, morning, afternoon and evening. A very good paper was given on "The Ideal Auxiliary Member" and a paper on "Christian Stewardship and Finance" by Mrs. Firth of To-field. Rev. Bainbridge of Viking gave a splendid address on "Home Missions in Alberta." Rev. Lob of Riley gave the address of welcome to delegates and Rev. R. H. McPherson brought greetings from the Presbyterial "Missionary Dimes." A dialogue was given by ten little girls. Vocal music was splendidly rendered by Mrs. Cranston, Mrs. Melhus and Mrs. Bendisken (all of Riley), and a reading given by Mrs. J. L. McPherson, Graduate of the School of Expression, Edmonton. Reports brought in by the various secretaries of departments showed good work done. The allocation of Presbyterial was over-reached and spiritual advancement shown. A striking feature was "Glimpses of the Auxiliary" given by the President. A banquet was tendered the delegates for which a hearty vote of thanks was given, also for the kind hospitality shown them during their sojourn in Riley.

Officers for 1929:  
President, Mrs. A. J. Thorsley, Riley.  
1st Vice-President, Mrs. Wright, of Irma.  
2nd Vice-President, Mrs. Reeds, of Irma.  
Secretaries, Mrs. Osterhout & Mrs. Shaw of Irma.  
Treasurer, Mrs. R. H. McPherson, of Holden.  
Christian Stewardship and Finance, Mrs. Cookson, of To-field.  
Strangers' Sec., Mrs. Stouffer, Jarrov.  
Associate Helpers Sec. — Mrs. Knowles, Wainwright.  
Mission Bands and Baby Bands, Mrs. Elford, Irma.  
Supply Sec., Mrs. Hay, Riley.  
Missionary Monthly Sec., Mrs. Love of Wainwright.  
Press Secretary, Mrs. Steel, Wainwright.  
Temperance Sec., Mrs. Swift, To-field.  
C. G. I. T. Sec., Mrs. Firth, To-field.

## HOOVER SIGNS IMMIGRATION LAW IN U. S.

Washington, March 23rd.—The new immigration law of the United States will become effective on July 1st next. President Hoover announced Friday unless action is taken by congress in the mean time. In proclaiming the new basis for European and Oriental immigration, Mr. Hoover stated "the attorney general has advised me that in failure of congress to suspend action on the immigration act to issue the proclamation establishing national origin it is now mandatory upon me as the basis of immigration quotas."

The proclamation puts into effect the new basis which will double the British quota and cut in half the Irish, Free State, the German and the Scandinavian.

## CHEVROLET SIX SEEN IN PICTURES

**CHEVROLET PRESENTATION  
DRAWS BIG CROWD**  
Keifers Theatre was packed to the doors Tuesday night when the annual demonstration and moving picture show of the Chevrolet cars was put on by the General Motors Corporation.  
The C. G. I. T. orchestra consisting of Misses Locke, Wright, Thorpe and Allan furnished a number of delightful selections and Mr. E. Goodale and Mr. Locke rendered solos.  
From the famous "Bluesome" fishing fleets of Lunenburg and the iron mines of Sydney to the logging camps of British Columbia is a far cry. Yet the several hundred people who were fortunate enough to gain admittance to the special Chevrolet Chassis Lecture and Demonstration held in Keifer's Theatre last night, viewed these scenes and many more from the length and breadth of the Dominion, illustrative of the nation's vast natural resources and scenic wonders.

"Chevrolet Across Canada" is the title of the highly educational moving picture which was specially taken for the Chevrolet Motor Company of Canada and was shown here under the auspices of the Irma Motors, local dealers. Chevrolet cars and trucks were seen playing their part in the Nova Scotia fishing and mining industries, or doing their bit in the building of good roads in the Prairie Provinces. Gathering the nation's wheat in the Canadian West, the same sturdy vehicles were shown beside the combines leading grain for speedy transportation to the elevators.

Thrills of another kind were seen in Ontario where numbers of Chevrolet trucks do service as fire engines. A fire truck was pictured making a record run and fighting and putting out a real live fire. A horrible railway accident was narrowly averted through the efficiency of the car's four-wheel brakes.

Most of the principal Canadian cities visited by the camera men were shown on the screen. In Montreal the audience saw the large fleet of Chevrolet cars and trucks in the service of the Bell Telephone Company. At Toronto were seen fleets of two dozen Canadian National and Canadian Pacific Express trucks starting out on their runs.

The towering Rocky Mountains, pictures of Banff and the placid waters of Lake Louise, the tall timbers of British Columbia, and bathing scenes at English Bay, Vancouver, were among the scenic pictures of the Chevrolet film.  
Previous to the moving picture film an interesting and instructive description of the inner workings of the new Chevrolet Six was afforded the audience by means of an illustrated lecture delivered by Mr. G. M. Gossage, of Oshawa, Chevrolet expert.  
Mr. E. W. Eldredge is the Chevrolet District Representative.  
Music for the dance was furnished by the Loughheed orchestra and was well enjoyed by all who waited for the dance.

## ALBERTA SETS NEW RECORD IN OIL PRODUCTION

Of the 630,405 barrels of oil produced by wells in all parts of the Dominion in 1928, Alberta oil fields provided 488,268 barrels or 77.4 per cent. This Alberta production of 488,268 barrels in 1928 compares with 318,741 barrels in 1927, showing an increase of about 170,000 barrels or more than 50 per cent. Total production for the Dominion last year was 630,405 barrels compared with 470,591 barrels in 1927.

## A Sad Error

"Hey, Captain, a man's fell overboard," yelled Marvyl, "a new ship hand from New York."  
"Well, throw a buoy over," yelled the Captain.  
"Alright," yelled Marvyl grabbing the cabin boy and throwing him over "I have."  
"Hey, you fool, what do you mean by throwing the cabin boy over. I meant a cork buoy," yelled the Captain.  
"Well," yelled Marvyl, angrily, "I don't care if he was from Cork, Erin, Scotland, England, Mexico or China, he's gone now."

## NEWS ITEMS FROM JARROW

Mr. H. Barton made a flying trip to Edmonton this week.  
The P. A. Girls Club met at Mrs. Meakin on Tuesday, March 26th. The girls planned a mother's banquet, also a hike to Irma for the Easter holidays. Games and contests were indulged in and a dainty lunch was served.  
Mr. and Mrs. Marby are spending a few days here. We are pleased to see Mr. Marby is slightly improved in health.  
The local orchestra is busy practicing some new pieces for the big novelty dance on April 1st.

If the weather continues good the farmers will be on the land next week. There will be no regular meeting of the Community Club on Monday because of the novelty dance. The next meeting will be held on the 15th and a small charge may be asked as some of the high-hearted rascals of the district, who have us in any way, have put in a kick about the use of the school, so the trustees have felt it necessary to set a small rent on same.  
Mrs. Robt. Heron spent last week with her sister-in-law Mrs. McCrae on.

The regular meeting of the Ladies Aid will be held at Mrs. Barton's on Wednesday afternoon.  
Mr. and Mrs. G. Tripp of Irma visited with Mr. and Mrs. Waite on Sunday.

Quite a number from here attended the Chevrolet demonstration in Irma Tuesday evening.

(Too late for last week.)  
On Tuesday evening, March 12th the P. A. Girls Club entertained their friends at a social evening in the school. About forty young people enjoyed an evening of games and contests and then the boys fished for a partner for supper. Each was successful and after lunch the evening closed with the club's song and yell.

The community club took their play "The Colonel's Maid" to Irma on Friday, March 15th and report quite a good crowd. About thirty seven dollars was added to the building fund for the hall. They are grateful to all Irma friends who patronized the play and helped make it a success.

Church services were held as usual on Sunday. Quite a good sized congregation were present and the choir gave a very pleasing anthem.  
Rev. Mr. McNeil has motored to Kelsey for a few days.

Special music and services are being prepared in both church and Sunday school for Easter.  
Mr. A. McGregor, Mr. H. Barton and G. Thero attended the tractor school in Wainwright last month.

Mr. and Mrs. E. Rae, Miss Thorpe and Mr. Linnen of Irma spent Sunday at the home of Mr. and Mrs. Barton.  
The Community Club met for their regular meeting on Monday evening in the school. A good number were present and after a short business meeting an Irish program was enjoyed. Each member was asked for an Irish joke and some real good ones were told. An Irish contest, potato races, dancing the Irish reel, making up Irish limericks and an Irish lunch made a very enjoyable evening.

The Community Club have planned a big novelty dance for April the first. If you think you aren't going to have a good time come and be fooled.  
Mr. and Mrs. H. H. McDougall motored to Greenhills this week end. They report the roads pretty good as far as Wainwright.

Miss Janet Wilson, teacher at Melbrae, spent the week end with Mr. and Mrs. J. Miller.

## B. C. IS PLEASED WITH THEIR LIQUOR ACT

Halifax, March 25.—(Although it did not work smoothly at first, government liquor control in British Columbia is now removed from politics and is being run on a strictly business basis and is proving most successful," said the Hon. Nelson Loughheed, minister of public works, in the government of British Columbia, who is leaving for England today on the White Star liner Megantic. Bootleggers had practically disappeared from the province, he said, and there had been decrease in crime or drunkenness. The government netted nearly four million dollars from the sale of liquors for the year ending March 31st, 1928.

## NEWS ITEMS FROM KINSELLA

The weather is continuing fine and the roads are drying up fast. Farmers are busy getting ready for spring work. Some have already commenced working in the fields, discing down breaking, etc.

There was a lot of new land broken last year, which means a nice increase in acreage for cropping this year.  
The Hudson Bay Company put up a number of buildings last year and had a small amount broken on each quarter for new settlers to take over in the spring.

Mr. and Mrs. Ray Fuder have purchased a farm 4 miles west of Viking and are moving soon. They were farming with Mr. T. Woods, north of town for the past year.

The last of a series of dances held in the Lake Vernon school house during the winter months was held on Friday evening. A good time and attendance was reported.

People are keenly interested in the proposed "lowering" of Lake Vernon, which is about eight miles long and a quarter of a mile wide. The Rev. T. T. Edmunds took a list around while here last fall and received signers to the extent of nearly \$2,000, towards the project. The municipality also promised an additional \$1500, providing the scheme was found to be feasible by surveyors. It is thought that a ditch costing approximately \$3,000 to \$4,000 will practically drain the lake and with the numerous springs surrounding it, this should make it a fresh water stream and with one or two small bridges or culverts put in, so as to be able to cross, would cause a saving of many miles for those who now have to go around. The land thus drained could also be used for farming purposes.

Mr. H. L. Cooper is shipping a carload of stock from Kinsella on April 1st.

Rumors are current that the C. N. railway is likely to move their divisional point from Wainwright to Kinsella. J. N. R. have the very best water here and lots of it, while at Wainwright the water is of a poor quality.

A large gang of men have been stationed at Kinsella. They are employed by the C. N. railway laying new steel on the track. They are now well past Kinsella going west.

The general merchants, Messrs. Third and Ansel have done a number of alterations, and added new equipment, since taking over the store from Mr. F. J. Wangness. The last item being a large refrigerator show case, made especially to order, for keeping meat, butter, etc., fresh, and fills a long felt want.

At the first meeting of the 1929 council of municipal district of Kinsella No. 424, Mr. A. Brady was appointed Reeve, and Mr. J. F. Murray Deputy Reeve for the next six months. Road committees were appointed as follows: Divisions 1, 2 & 6, Councilors Lissom, Albrecht and Bancey; Divisions 3, 4 and 5, Councilors Brady, Bowden, and Murray. The next meeting will be at the call of the secretary, Mr. B. H. Green.

Mr. Knut Moen, residing with Mr. Overbo, and recently out from Norway, had the misfortune of having his face badly bruised and a wrist broken on Friday afternoon. Mr. Moen was out in the brush loading up a load of wood when the team got frightened and started off. The unfortunate man got caught in the lines and was dragged along on the frozen ground. He was taken to Viking where he received medical attention from Dr. Little.

Mr. and Mrs. E. Mark and Mr. and Mrs. W. Rees, spent last Wednesday afternoon at Loughheed.

Mr. Kerns returned from Edmonton last Thursday.  
Mr. J. Walker of Irma has commenced working for the Jamieson Construction Co. here.

Mr. William Anderson was at Irma on Saturday last.

Mr. and Mrs. Ansell and Mr. Third motored to Irma Sunday afternoon.

Mr. Frank Murray shipped a bunch of horses from here one day last week.  
Miss Isabel Stronach who has been at Camrose Normal came home on Saturday and is spending the Easter holidays with her parents Mr. and Mrs. J. Stronach here. Miss Stronach is teaching in the public school

## The Evil Of Grain Mixing

Following the unsatisfactory result of grading the 1928 wheat crop of Western Canada, a veritable deluge of protest and complaint has poured in to Dominion and Provincial Governments, Wheat Pools, Grain Commission, Grain Exchange, and all farmer organizations. Merchants and business men generally, suffering because the farmers have suffered, add their protests.

In all this volume of criticism perhaps no one feature has called forth more vigorous objection than has the practice of mixing. It is quite true that everybody does not see eye to eye on this subject and farmers themselves are sharply divided on the issue whether or not mixing should be absolutely prohibited and made an offence under the law. While many favor such a policy, others hold the opinion that if mixing was entirely disallowed there would be a terrible glut of low grade and no grade grain on the market, with resulting enormous loss to producers.

The Saskatchewan Grain Inquiry Commission has gathered within its own province a mass of evidence on this and allied subjects affecting the grading and marketing of Western grain, and proposes to carry its investigations further afield in Manitoba, Alberta, British Columbia, and Europe. In what is recognized as the most determined attempt yet made to find solutions to some of the acute problems confronting the Western grain grower. In due time the report and recommendations of that commission will be laid before the legislative authorities.

There is, however, another form of mixing in regard to which there are no two opinions. It is unanimously denounced as an evil, and one that is costing the farmers of Western Canada many millions of dollars annually. Furthermore, control in the case of this particular form of mixing rests, not with Governments or Wheat Pools, or Grain Commissions, but with the individual grain grower.

The form of mixing to which reference is made is that indulged in by so many farmers of sowing seed of mixed varieties. Instead of sowing only pure seed of one good variety, the seed too frequently used is a mixture of different varieties, white wheats, mixed with red wheats, with consequent loss in value of the crop harvested. Thus the original mixing takes place, not in country or terminal elevators, not on board ship, not in the world's markets, but right on the farms of Western Canada.

Investigation over a number of years has established the fact that certain varieties are best adapted to certain districts. This information is available to every farmer. It is his for the asking from his nearest Experimental Farm. He should secure this information and then sow the variety which grows best in his district. He may not be able to afford to purchase sufficient pure, registered seed of that particular variety to seed his entire acreage this year, but he should get a few bushels of such pure, registered seed, sow it in a prepared plot, and thus increase his seed supply on his own farm.

The frosts of last Fall make it necessary that all sown seed this spring be first tested for its germinating qualities. Strong germination is necessary in wheat, oats, barley and flax. Strong plants having healthy vigorous roots withstand adverse conditions such as spring frosts, insects, disease, better than weak plants. Farmers will be well advised, therefore, to send samples of their seed grain to their nearest Dominion Seed Laboratory and have it tested.

There is still another form of mixing on the farm which is even more disastrous, that is the mixing of weed seeds with grain through the use of impure and not properly cleaned seed. Governments and railways continue to run special seed cleaning machinery demonstration trains through the country. Governments build seed cleaning plants. Nevertheless, tons of weed seeds are sown annually, as well as mixed varieties of grain, as was definitely proven by the seed drill survey conducted in Saskatchewan a couple of years ago.

Western Canada farmers must begin at the beginning in dealing with this mixing evil. First, it is essential that all seed sown be of one good variety, thoroughly cleaned, with all weed seeds eliminated, and tested to demonstrate its germinating qualities. With the groundwork thus laid for the production of clean, high grade grain, necessary further steps can and should be taken to preserve the identity, grade and standard of that grain all the way from the farm to the ultimate world market.

## Girl Champions In West Honored

Banquet Tendered To Members Of Prince Albert Swine Club

Unique in the history of the Agricultural Society, of Prince Albert, Sask., was the banquet tendered recently to the young members of the Prince Albert Swine Club, Misses Alice Fear, and Kathryn Coyer, winners at Toronto, of the trophy presented by Vice-President W. D. Robb, of the Canadian National Railways, emblematic of

Dominion championship among swine clubs of Canada in the annual judging and demonstration contests. Mayor Danion, of Prince Albert, presented each of the girls with a wrist watch on behalf of the agricultural society.

## Chinese Population In Canada

Number Of Chinese Resident In Dominion Is Given As 55,706

According to reports tabled in the House of Commons, three Chinese immigrants are admitted to Canada during the fiscal year 1927-28, two of whom were women. Two students coming to attend Canadian universities were admitted as non-immigrants. Eleven Chinese were deported during the year.

The registration carried on during 1923-24 shows a Chinese population in Canada of approximately 55,706. Of this number, 48,365 were males, 1,292 females, and 6,049. Of the total British Columbia had 31,116 Chinese residents.

The number of Japanese entering Canada in 1927 was 511, and in 1928, 535. Of the total for two years, 273 were adult males, 557 adult females, and 216 children under 18 years of age.

All the big nations have agreed not to go to war, so they are now building warships to give the sailors a ride.

An elephant's bath requires 100 pounds of soap and more than \$100 worth of the purest Indian oil.

Minard's Liniment prevents Flu.

## Reduce Aviation Expenditures

British Government Decides To Lessen Appropriation For This Year

British estimates for government aviation expenditures during 1929, presented to the House of Commons by Sir Samuel Hoare, air secretary, total \$81,000,000. This is a decrease of about \$250,000.

In connection with the estimates, Sir Samuel said the new airships, the R-100 and the R-101, should be completed early in the financial year. "The two airships should begin the trials in the spring and I hope to see the flights to overseas bases, such as Montreal and Ketchikan, achieved during the year," Sir Samuel added.

## SPARKLING EYES

AND ROSY CHEEKS

The Birthright Of Every Girl With Rich, Red Blood In Her Veins

The dull eye that gazes with bloodlessness is a sign of misery and weakness. Anemic—that is bloodless—girls and women have dull, heavy eyes with dark lines under the lids. But this is not all. Anemic women have all through the system, girls and women who are anemic, they are breathless and incapable of much exertion, while older women who are anemic complain of being "never really well."

There is only way to bring brighter, better health for pale, pinched girls and women. This way is to invigorate the body with new blood—rich, healthy blood that imparts strength and restores the bright eyes and rosy lips of perfect health. That Dr. Williams' Pink Pills make new rich blood and bring health and strength has been proven in thousands of cases. One such case is that of Miss Margaret White, Parry Sound, Ont., who says: "I was attending high school and my examinations were coming on. I was working hard, and began to feel easily tired, and often had severe headaches. When I sat down to a meal I felt that I did not want to eat. I went to a doctor who told me that I was anemic. I took his medicine, but made little progress. Then my aunt, who had great faith in Dr. Williams' Pink Pills, gave me a supply, and I began taking them. I soon noticed that my appetite was improving, that the headaches came less frequently, and that I was not so easily tired. I went away to camp for my holidays, taking the pills with me, and when I returned home a healthy girl, my weight increased, my cheeks grew rosy, and the pain had vanished. I strongly recommend every weak girl to give Dr. Williams' Pink Pills a fair trial. If your dealer does not keep these pills you can get them by mail at 50c a box from 'The Dr. Williams' Medicine Co., Brockville, Ont.'

## Alberta Dairy Products

Exceeded In Value Twenty Millions Dollars For 1928 Season

Alberta's dairy products for 1928 exceeded in value \$20,000,000, which represented 8.3 per cent. of total agricultural production. Dr. G. P. Marher, dairy commissioner, told delegates at the recent dairymen's convention in Edmonton. There was a marked improvement in the grade of cream supplied by producers and in the quality of creamery products, he declared.

Miller's Worm Powder: net so thoroughly that stomachic and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infant's stomach and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are a tonic and health-giving in their effects.

Dairying In Okanagan District Is turning increasingly to the dairy industry with profitable results. Cream cheques totalling \$250,000 were paid out during the past year.

Great Britain produced 252,000,000 tons of coal in 1927.

## Start Construction Of Ocean "Landing Field"

First Floating Airport To Be Anchored Half Way Between New York and Bermuda

Construction of the first floating airport of several that have been planned for trans-Atlantic airplane service will be begun immediately, according to an announcement by Henry J. Glow, Inc., naval architect. It is to be anchored about 300 miles at sea, half way between New York and Bermuda.

The airport is to be a steel platform, 1,200 feet long, 460 feet wide, and riding normally at least 100 feet above the surface of the ocean. It is to be manned by a crew of forty-three men and will contain a machine shop, hotel and restaurant, and radio beacons to guide planes at night.

To hold this floating island in place there will be chains 21,150 feet long attached to specially designed sea anchors. Six thousand tons of steel and 2,000 tons of iron will go into its construction and its cost is estimated at \$1,500,000. The Glow concern has been retained as consulting engineers by the builders, the Armstrong Scaudmore Development Company of Wilmington, Del.

It is understood that Mr. Armstrong expects the island to be in place by summer. Experimental flights then will be made between the mainland and Bermuda, using the seadrome as a stopping place. If these experiments are successful, the construction of other floating trans-Atlantic service will be pushed as quickly as possible.

The Armstrong company already has conducted tests with large Sikorsky amphibians on areas similar to that of the seadrome, and needs only 65 per cent. of the available space. By scale model tests the company has convinced naval engineers that the seadromes will ride any waves up to 180 feet in height with practically no motion. Eight of these islands are contemplated. It is said, in a chain to Europe by way of the Azores. Plans of the would-be able to leave New York at 6 o'clock in the morning and arrive at Plymouth, England, at 4:30 o'clock the following afternoon.

**It Will Prevent Eclerated Throat.**—At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

## Recipes For This Week

(By Betty Barclay)

### ORANGE BREAD

- 1 yeast cake.
- 1 cup lukewarm water.
- 1 egg.
- 1 tablespoon melted butter.
- 1 tablespoon melted lard.
- 1 teaspoon salt.
- 2 tablespoons sugar.
- Grated rind 2 oranges.
- 3/4 cup orange juice.
- 3 cups flour.

Dissolve yeast in warm water; add egg well beaten, butter, lard, salt, sugar, grated orange rind, orange juice, and flour. Beat until smooth, adding more flour, if necessary; knead until smooth and elastic; let rise till double its bulk; shape in double loaf; put in breadpan; let rise again to double its bulk, and bake one hour in a moderate oven. This bread is delicious with orange marmalade for afternoon tea.

### CARROT PUDDING

- 1 1/2 cups flour.
- 1 cup brown sugar.
- 1 cup grated carrots.
- 1 cup grated potatoes.
- 1 cup raisins.
- 1 cup currants.
- 1 cup finely chopped suet.
- 1 teaspoon soda.
- 1 teaspoon molasses.
- A little nutmeg.

Dredge fruit with some of the flour and scald soda before adding. Mix well and steam three hours.

Minard's Liniment for the Grippe and Flu.

## Kaiser Cost Germany Millions Every Year

Abdication Has Saved Country Large Sum In Salaries

It has been figured that Germany in the last 10 years has saved \$125,000,000 in salaries to the former royal rulers of the empire. Before the war the kaiser cost Germany \$5,264,000 a year. Then came three kings—of Bavaria, Saxony and Wurttemberg—and seven grand dukes, who cost Germany more than \$5,000,000. Besides these royal "appointments" the other expenses of the imperial system brought the annual expenditures up to \$12,500,000. Of course there had to be big armies and generally increased cost of royal show under the royal government but this further cost could hardly be estimated.

## PARENTS UNDERSTOOD THIS BABY'S LANGUAGE

"We thought we were going to lose our baby," says a Kentucky mother. "He couldn't digest anything and was getting thinner every day. After one of his fretful, crying nights, I thought of Castoria, and got some. A few drops made him comfortable, and after a few doses, he seemed like a different baby." Doctors everywhere recommend purely vegetable, harmless Fletcher's Castoria for colic, constipation, colic and other ills of babies and children, and millions of mothers know its gentle influence is best. Avoid imitations. The Fletcher signature is the mark of genuine Castoria.

## Westerners Win Debate

The Western Canada Universities debating team, supporting the affirmative of the resolution "That this house is opposed to all forms of censorship," was given the decision over debaters from Dalhousie University, at Halifax, recently.

## Area Under Pasture

The total acreage under pasture in Canada in 1928, was 9,528,043 acres.

## NICE WORDS WON'T DYE a dress or coat...

Neither pretty pictures nor colorful adjectives will dye a dress or coat. It takes real dyes to do the work; dyes made from true anilines. Next time you have dyeing to do, try Diamond Dyes. See how easy it is to use them. Then compare the results. Your dealer will refund your money if you don't agree they are better dyes. You get none of that re-dyed look from Diamond Dyes; no streaking or spotting. Just fresh, crisp, bright new color. And watch the way they keep their brilliance through wear and washing. They are better dyes because they contain plenty of real anilines—from three to five times more than other dyes. But you pay no more for them than for ordinary dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

**Diamond Dyes**

## GOOD ADVICE FROM MOTHER OF SEVEN

Recommends Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I began taking Vegetable Compound for nervous and female troubles and I must say I felt different after the first dose. I have been told this last six months that I look twenty-five, although I am now forty-seven and have had seven children. I have taken the Vegetable Compound regularly for some time and sleep well, rise early and feel young."—Miss McKie, 18 Laurier Ave., Toronto, Ontario.

W. N. U. 1777

## Largest Single Item In The Dominion's National Wealth Is That Of Agriculture

The aggregate national wealth of Canada for the year 1920, was \$39,491,482,000, says a report issued by the Dominion Bureau of Statistics. This figure is exclusive of undeveloped natural resources. Similar estimates placed the total wealth for 1925, at \$25,673,171,000, and for 1921 at \$22,195,000,000, "though these figures are not exactly comparable in view of certain improvements and additions made in the method of estimation," the report points out. The figures, however, can be taken to indicate an increase of about \$500,000,000 for the twelve months under review over the previous like period, and approaching an advance of \$3,500,000,000 in the five years 1921-26, the report continues.

The largest single item in the Dominion's national wealth for 1920 was that for agriculture, which reached a total of \$7,817,715,000, or 29.28 per cent. of the entire amount. This figure includes the value of agricultural production for the year.

The second largest element was urban real property, which reached a figure of \$7,081,375,000; the tangible value of the forests was \$1,866,612,000.

As regards the provincial distribution of wealth, Ontario ranked first with estimated aggregate wealth of \$9,130,189,000, or 34.2 per cent. of the total, and Quebec second, with estimated wealth of \$6,656,108,000. The western provinces came first in per capita wealth, however; British Columbia held first rank with a per capita wealth of \$3,844; Alberta second, with \$3,608; Saskatchewan, third, with \$3,556; and Manitoba fourth, with \$2,857. These figures may be compared with \$2,902 and \$2,598, the per capita wealth of Ontario and Quebec, respectively, and \$2,812, the per capita wealth for the whole Dominion.

By provinces, the estimated wealth was:

Prince Edward Island, \$145,745,000; Nova Scotia, \$325,748,900; New Brunswick, \$723,092,000; Quebec, \$6,656,108,000; Ontario, \$9,130,189,000; Manitoba, \$1,866,600,000; Saskatchewan, \$2,902,739,000; Alberta, \$2,192,007,000; British Columbia, \$2,185,210,000; Yukon, \$12,478,000.

### Rush For Homesteads

Hundreds Of Homesteads Taken Up In Three Prairie Provinces

This year, from the point of view of new homesteads taken up, the year 1929 has got off to a good start. January saw 761 homesteads filed upon, as compared with 457 for the same month last year—an increase, roughly, of two-thirds in favor of the present year. Alberta led the list with 386, as compared with 201 for January, 1928; Saskatchewan followed with 309 as against 194; Manitoba came next with 12 against 51, and British Columbia last with 24 against 11.

### Object Had Vanished

The class had been told to bring things to school for drawing lesson, and just as the lesson was about to begin, a small boy was found standing tearfully at his teacher's desk.

"I've swallowed my object," he explained.

"What was it?" asked the teacher anxiously.

"A banana," replied the would-be artist.

Products produced from the forests of Canada have an annual value of about \$475,000,000, of which approximately \$450,000,000 is distributed for labour, equipment and supplies.

Teacher: "Can any of you tell me an old saying that is now out of date?"

Moses: "Yes, sir! Honesty is the best policy."—Humoristic Listy, Prague.

W. N. C. 1777

### Range Investigations

To Determine Cause For Depletion Of Pasture Crops

Range lands pastured on from year to year apparently suffer by a depletion of certain of the valuable plants. A survey of many ranges in Southern Saskatchewan and Alberta, by officials of the Department of Agriculture, at Ottawa, revealed an acute shortage of pasture crop. Many of the ranchers were forced to reduce their stock. The shortage of feed was felt most during winter months and more than 90 per cent of the stock men found it necessary to cultivate some of their land for the growing of forage crops to supplement the native forage. Realizing that something should be done to place the ranching industry on a more permanent and secure basis, the forage crops and feed husbandry divisions of the experimental farms have undertaken a programme of work that gives promise of very useful results. An experimental ranch, fairly representative of the large range area, has been established near the town of Manyberries, in Southeastern Alberta. In his report for 1927, published by the Department of Agriculture, Ottawa, Dr. G. MacNicol, the Dominion Agronomist, announces that it is intended to put into practice different grazing methods including that known as deferred and rotation grazing. The grazing practices regarded as most desirable are those that combine maximum utilization with the maintenance of a vigorous vegetative cover of the climax types. The work is only commencing, but very hopeful results are expected from the range projects that are being undertaken.

### Fertilizing The Strawberry Bed

Fertilizers Should Be Applied In The Fall For Best Results

While fertilizing the strawberry bed in the spring may increase the size of the fruit it does not increase the number of fruit buds in the plants. Investigations carried on by Dr. J. L. MacNicol, of the horticultural division of the experimental farms, leads to the conclusion that to increase the fruit buds, fertilizing of the patch requires to be done in the fall of the year. An account of the work published in Bulletin No. 119, of the Department of Agriculture, at Ottawa, shows that the highest yields of fruit were secured when the fertilizer was applied on September 15th, of the first year, and of August 15th, of the first fruiting year. These dates, it was learned, are quite close to the beginning of fruit bud differentiation as determined by microscopic studies, carried on with the young plants.

### In Need Of Publicity

New York Paper Has Queer Idea About Vancouver

Vancouver, which is voting some \$80,000 this year for publicity purposes, might spend a few dollars of it New York to let New York know there is such a place. A New York paper, in alluding to Percy Williams' feat, says: "The young Canadian is a sensation, and well he might be, as he stepped from the backwoods of Northwest Canada into fame with a dual victory at the 1928 Olympic games." Evidently Vancouver has still a lot to learn about putting herself on the map.—Victoria Colonist.

### Opinion Has Changed

The change that has taken place in the mental attitude of the people of Canada toward its vast north-western areas is simply amazing. At the present time it is admitted on every hand that this territory is no longer a barren wilderness, but a region packed with immeasurable potential wealth, which only awaits enterprise and capital for its development.

U.S. Destroyers To Visit B.C. The United States Government proposes to send six destroyers to visit British Columbia ports during the summer of 1929. Three of these vessels will be at Victoria, and three at Vancouver from July 11 to July 15. Announcement to this effect was made by Hon. J. L. Ralston, minister of national defence.

Now that a motorcycle has ridden along a tight rope it would seem that tight ropes are no longer safe for pedestrians.

Birds have the most remarkable memories of all wild life.

## Indian Wedding

The ancient marriage rites of the Stoney People were exemplified when Chief Bear Paw and his minor chiefs united Miss Sylvia Hanishen-Cate, of Hilversum, Holland, to Mr. Louis Lantius, of Vancouver. Immediately after the picturesque Indian ceremony which took place on the Bow River at Banff, the couple were again married according to the rites of their own church. Bear Paw is seen placing the eagle feathers, emblem of faithfulness, on the groom's head and bracelet on the wrist of the bride.

### Prefers Rural Life

Ontario Man Says Farmer Is His Own Boss

In a letter written to the Farmer's Advocate, "Digit," of Perth County, Ontario disagrees with an assertion that those who live on the farm do so because they cannot tear themselves away and are willing to lose money on the farm rather than draw a hundred a week in the city. He says: "I know of several folks in the city where I am welcome to go on the pay roll at any time. I have tasted some of the joys of city life and at a good salary. I came back to the farm for two reasons: First, I could earn more money and have more left when the year was up; and second, there is not the worry and incessant demand of attention to business on the farm. As to the \$100 a week, I met a couple of men who received that amount. I met a hundred who were competent and successful farmers, but had gone to the city, and only three or four were getting over \$30 per week; they could have done as well had they stayed on the farm. Foolishly, we forget what it costs to live in the city."

### Breeding Poultry Going Abroad

Market Opening Up In Many Parts Of The World For Record Of Performance Stock

Canadian poultry raisers and particularly those who are participating in the benefits of the Record of Performance, are finding a market for their stock in many parts of the world. One shipment made from Vancouver, in the month of February, included one thousand hatching eggs and twenty White Leghorn birds. This order was filled through the British Columbia Record of Performance Breeders' Association, that has already sent about three thousand eggs to Japan. The majority of the hatching eggs in this shipment were for the Japanese Experimental Farms system, while the breeding stock, consisting of five cockerels and fifteen hens from high record stock, were purchased by a Japanese breeder. The Live Stock Branch of the Department of Agriculture, within which the Record of Performance work is carried on, reports that of the eggs shipped to Japan last year the hatches were well over fifty per cent.

## FASHION

No. 341—Simulates Tulle Piece Mode. This style is designed in sizes 10, 18, 20 years, 38, 40 and 42 inches bust measure. Size 38 requires 3 1/2 yards of 40-inch material with 1/2 yard of 36-inch contrasting.

No. 334—The Smart Bolero. This style is designed in sizes 8, 10, 12 and 14 years. Size 8 requires 1 1/2 yards of 40-inch material with 3/4 yard of 36-inch black material for bolero and skirt, and 3/4 yard of 40-inch material for waist and collar.

No. 941—Chic and Slender. This style is designed in sizes 36, 38, 40, 42, 44, 46 and 48 inches bust measure. Size 36 requires 3 yards of 40-inch material with 3/4 yard of 27-inch contrasting.

No. 387—Perfect Foundation. This style is designed in sizes 16 years,

## Make Soil Surveys For Establishment Of Agriculture On a More Scientific Basis

### Fruits Of British Columbia

Almost Every Variety Of Fruits Now Grown On Pacific Slope

Most fruits except those indigenous to the tropics or sub-tropics, are now being produced in British Columbia. Apples, apricots, cherries, peaches, plums, prunes, nectarines, figs, loganberries, raspberries, strawberries, grapes, almonds and other less hardy fruits and nuts are now grown commercially. The principal crop is apples, the production of which has increased in the last 17 years from 250,000 bushels to over 3,000,000 bushels.

Recent experiments have shown that some districts of British Columbia are likely to become notable as producers of fruits, nuts and crops that have hitherto not been grown in the province. Flowering bulbs are now being grown profitably.

Co-operative marketing is largely practised by fruit growers and farmers generally. A large percentage of the fruit produced in British Columbia is exported to distant markets including Great Britain, the Orient and Australia. A horticultural branch is maintained by the Provincial Government to assist the industry.

### Mistreating The Heart

Few People Pay Attention To Warning Of Trouble

Take care of your heart, You have only one. You give it a huge amount of work to do and it does it without telling you how you are mistreating it. But when it does rebel and tells you, pay attention to the warnings.

There are some of the evidences of a worn-out heart: You are short of breath on exertion that had not previously produced distress. You may notice that your shoes are tight in the evenings, but that you have no difficulty in putting them on the next morning. Then one day you take cold; the next day you are short of breath; you have a distressed cough and your feet are swollen.

As soon as the symptoms are relieved the average person wants to get up rather than to go about slowly and gradually getting back to his usual activity. It would not be unmilitated bad fortune for a person with a bad heart to have a broken leg too.

### Just Ordinary Business

Certified Cheque For Large Amount Nothing To Office Boy

Engineering a very special matter of business involving the handing over of a hundred thousand dollars, a lawyer decided that a certified cheque would be as satisfactory as actual cash, and safer. He therefore drew his cheque to this amount made payable to "Bever." He took it to the bank and spent most of an hour with an official arranging for the safe delivery of the paper to his office, for, as soon as the bank certifies a cheque to "Bever" it is cashable by anybody, anywhere. It was arranged that the cheque was to be sent by a clerk, accompanied by an armed guard. The gentleman, relieved by the precautions mapped out, went to lunch. When he returned to his desk the office boy looked up. "A couple of fellows brought a cheque for a hundred grand for you a while ago," he announced. "I put it in the basket with the rest of the incoming stuff."

### Maintenance Of Roads

Much Time And Attention Devoted To Protection Of Roadways

Well-constructed highways are necessary in Canada to meet the insistent demands of traffic, but well-maintained roads are even of more importance in the interest of economy. Consequently, provincial road administrative organs and engineers are devoting a great deal of thought and attention to the care and protection of roads. In 1927 the mileage of roads under maintenance in Canada under the patrol or gang system was 44,410 miles, at a cost of \$10,024,617.

### Killed Americans

Americans who insist on wearing the kilts while visiting Scotland are becoming such a common sight that the people pay little attention to it. In the past some of the costumes of the visitors have been so loud that true Caledonians shuddered, but apparently they are becoming accustomed to the way foreigners use the plaid.

As much as \$30,000 may be spent on organs installed in the best movie houses.

In view of the widespread interest that is being taken in the procuring of settlers for the farm lands of Canada and in the establishing of agriculture on a more scientific basis, W. A. Johnston, of the Geological Survey, presents some interesting facts about soil surveys. He states that soil surveys have been carried on to some extent during the past few years by the provincial governments in the prairie provinces, that this classification work has been done by the Department of the Interior, and that the mapping of soils which is primarily a geological problem, has been conducted by the Geological Survey.

A soil survey of any area shows the character and location of the several types of soil in the area and thus provides information regarding soil conditions that is of value not only to the farmer but to the scientific agriculturist outside the area who is called upon to give advice regarding questions of the soil improvement or who is attempting to solve problems regarding the most effective uses of certain kinds of soil. The fundamental principles of a soil survey is that each type of soil is best adapted to certain kinds of crops and requires the same kinds of farming practices and methods of soil improvement. It is held by scientific agriculturists that the art of agriculture, the oldest and most fundamental of all the sciences, is the least developed, and it is well recognized that there are at least a few distinct types of soil in each of the physiographic provinces that require different methods of cropping and farm practice. A soil survey in many cases reveals important problems of soil improvement and farm practice that need attention.

The perennial question of how long exclusive grain growing can be carried on in prairie provinces is partly a question of the character of the soil, for some soils can be cropped continuously much longer than other soils. Again, the question of soil drifting, which has become a serious problem in many parts of the prairie provinces, is partly a question of the character of the soil, for some soils are eroded more rapidly than others. A soil survey also affords a guide in the buying and selling of farm property, and in the selection of land for particular purposes.

Soils may be classified in several different ways, depending upon the point of view of the investigator. A purely geological classification, that is, according to the physical character and mode of origin of the soil, may be inadequate from the point of view of the scientific agriculturist, but must be taken into consideration in any scheme of classification. The geological classification ordinarily distinguishes ten to twelve different types of soil in a single physiographic area. The number may be increased if necessary, but there appears to be no need at present for any elaborate classification. The soils in Canada as geologically mapped usually include swamp deposits, dune sands, alluvium of streams, lake or marine sand, silt and clay, and glacial drift in its various forms such as moraines of the ice-sheets, kames or gravel hills and outwash sand plains.

The Geological Survey has mapped and described the soils from the point of view of origin and physical character in several areas in Canada, in the vicinity of Ottawa, in the Rainy River District, Ontario, in southeastern Manitoba, and in the Winnipeg-eston District of Manitoba. The three latter areas were mapped especially for the purpose of supplying information to intending settlers. Recently the mapping has been extended to cover the greater part of southern Manitoba up to latitude 42 degrees, and it is proposed to issue a map covering this area.

"My oysters are splendid. Yesterday a customer had three pearls in a dozen."—Moustique, Charleroi.

# Real USED CAR Bargains

to open the Second Week

IT'S never been done before! Never, in all motor car history, have all the Chevrolet dealers in Canada got together to slash Used Car prices and clear out their entire stock in a single month.

Here they are . . . good Used Cars . . . taken in on the Outstanding Chevrolet . . . bought right, kept right, priced right.

Now the New Chevrolets are coming to meet the spring deliveries . . .

And every Used Car has got to GO! That's why we've made it worth your while to buy now!

It's an opportunity nobody's ever had before . . . an opportunity you may never have again. One week has gone. Act now!

Every Used Car HAS to Go this Month!

A Late model 1927 Chevrolet Touring in good condition. Price \$500.00; \$200.00 cash, balance arranged.

1928 Chevrolet Coach, run only 1000 miles and has had excellent care. Price \$750.00; \$300.00 cash, balance arranged.

1927 Ford Sedan, four new tires, new radiator, runs very good. Price \$125.00; \$20.00 cash, balance arranged.

ALSO SEVERAL OTHER REAL USED CAR VALUES.

IRMA MOTORS,

Dealers, Irma, Alta.

### Burnside Poultry Farm

The Home of 6500 S. C. W. Leghorns and Imported Light Sussex

Booking orders for 1929 delivery of

Hatching Eggs, Pedigreed Cockerels and Cock Birds, Day Old Chicks, Mated Trios, Pullets, Breeding Stock, Custom Hatching.

Our stock is widely known for its qualities in health, vigor, production and type. Customers in the Fraser Valley and elsewhere have reported from 60 per cent. to 75 per cent. from their 1928 pullets in the best price season.

Place your order soon as already qualities of chicks and pullets have been ordered for good dates. Write for catalogue.

A. E. POWELL

Phone 388 Hammond, B. C. Box 155

### Household Hints

It is wasteful to throw away the peels of oranges. They can be used for marmalade, by shredding into very fine strips, and following the recipe for any orange marmalade, substituting one apple for the pulp of each orange called for in the recipe. Care should be taken to remove every particle of the thin membrane which holds the sections of oranges together, and the pulp to the skin, for this gives a disagreeable flavor to the marmalade.

Another way to use the peels is to put them through the mincer—always removing the membrane—and place the finely-chopped peels in jars, in alternate layers with granulated sugar. The layers should be

well pressed together, or weighted. After a few days a thick, golden syrup will collect at the bottom of the jars, and this is exceedingly delicious to flavor puddings, icings, cake fillings, or a dozen other dishes.

To dry the peelings and grate the yellow outside; to cut them 'while fresh in strips and candy them; to chop, and make confections mixed with nuts; these and many other ways of using them will suggest themselves. But by all means, avoid throwing them away.

If you have something valuable that you don't want and somebody else can use it, an ad. in this paper will sell it for you. Try it.

### WANT ADS

FOR SALE—7 ft. Masscy-Harris Disc in good shape. Price \$35.00—A. A. Taylor, Phone 809, Fabyan, Alta. 25-7-P.

BRUSHING—Wanted to figure on brushing, any size, at reasonable price.—John Baska, N.W. Soc. 3-45-8, Irma, Alta. 25-30-P.

WANTED—A quantity of seed rye. Leave word with price at Times Office. 25-7

## WORLD HAPPENINGS BRIEFLY TOLD

A survey of Fort Churchill will be undertaken immediately by the provincial government for the purpose of laying out a model townsite at Manitoba's seaport.

Charles Angers, former member of parliament, is dead at Quebec, at the age of 71 years. He represented Charlevoix County, at Ottawa, in 1906. He was a Liberal.

Regina's assessment for 1929 will be two and a half million dollars, greater than the amount upon which 1928 taxes were struck. It was estimated by R. J. Westgate, city assessor.

Soviet Russia on March 12, celebrated the 12th anniversary of the breaking out of the revolution which resulted in the abdication of the Czar. All shops, business houses and government institutions were closed.

League of Nations officials announced that an agreement had been practically reached on the main points of the protocol for adherence of the United States to the world court of justice.

More than half a billion pounds of dangerous explosives were handled by railroads of the United States and Canada in 1928 without injury to any person, and with a property loss of only \$77, the American Railway Association announced.

The Polish newspaper *Harcypolonia* says it has learned Pope Pius will begin a tour early in 1930, visiting Trieste, Zagreb, Budapest, Cracow, Warsaw, Vienna, Munich, Brussels, Dublin, Paris, Madrid and Lisbon.

Bankruptcy proceedings have been instituted against Princess Victoria, sister of the former Kaiser. The Princess, who is living in Germany at the palace in Bonn, Germany, declined to make a statement. The first meeting of her creditors was called for April 4.

**Cause of Asthma.** No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

**There's a Reason** Tea, it is rumored, can be improved somewhat by following the Siberian custom and adding just a dash of rum. Once when entertaining in Shanghai, a friend of mine gave tea thus embellished to a missionary, but served the ordinary variety to his wife.

"I just can't understand it," the good lady remarked about half an hour later. "At home John won't touch tea, and here he's having his fifth cup."

Use Minard's Liniment for the Flu.

Flashes of manufactured lightning 29 feet long have been produced at the Pittsfield (Mass.) laboratory of the General Electric Company.

It sometimes happens that a man's usefulness ends when his salary is raised.

## Early Heat In Antarctic

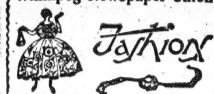

Wilkins Party Halted by Melting Ice At Expedition Base

The Antarctic was almost too warm for airplane exploration during the time the Wilkins expedition was at its base at Deception Island early this winter. Sir Hubert Wilkins, leader of the party, said after his arrival from South America.

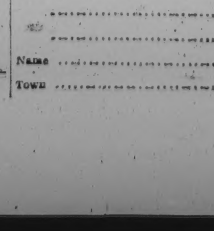

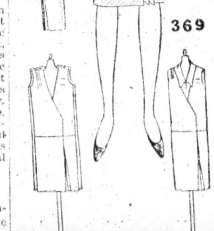

The earliest summer season in 14 years melted ice at the expedition base and deprived Wilkins of the use of snow-equipped planes, the explorer said.

Wilkins said he made no attempt to reach the south pole, approaching only within 650 miles of it, devoting his time to preliminary survey for weather observation stations in the Antarctic.

## Winnipeg Newspaper Union

Trim, slender model with diagonal closing bodice, with straight button-trim side, with pleats below. A strap of shoulder- or ribbon, caught at shoulder and slipped through bound opening in collar fashion, is sportive. The vestee with open V-neck has an attached rolled collar. Style No. 369 is of lovely sheer tulle in purple-blue tone, with vestee of matching silk crepe. Black wool jersey with white silk vestee, coppery red home-spun with silk crepe in beige, crepe satin in mahogany brown with beige silk crepe, and dark blue velvet with caramel crepe satin are a few of many interesting combinations. Designed in sizes 16, 18, 20 years, 36, 38, 40, 42 and 44 inches bust. Pattern price 25 cents in stamps or coin (cash preferred). Wrap coin carefully.

## Electric Power In Alberta

Transmission Lines Spreading Over Province At A Rapid Rate

The rapid rate at which electric transmission lines have been spread over the province of Alberta, especially during 1928, is indicated in a recently issued government report. A network of high tension lines now radiates east and west, north and south over the central and southern part of the province. There is a continuous line from Edmonton in the north to Magrath south of Lethbridge, in the south, with the exception of the gap of less than thirty miles between Millet and Ponoka still to be closed.

One power company, with headquarters in Calgary, is operating 332 miles of 66,000-volt lines and 839 miles of 13,200-volt lines. Of this mileage approximately 50 miles of 66,000-volt lines, and 474 miles of 13,200 volt lines were built during 1928, and the company's territory in the north now extends to the east as Wainwright and Hardisty.

## Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed by death may result from paring corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. If afflicted with corns, callouses or sore foot-humps, use "PUTNAM'S"—it's reliable, and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes from using PUTNAM'S PAINLESS CORN EXTRACTOR. 25c at all dealers.

## Tax On Bachelors

Cuba Has Some Advanced Ideas On Legislation

Cuba is the only country that imposes a tax upon its bachelors, but it is doubtful whether any other nation has shown the enterprise of establishing a governmental matrimonial bureau where spinsters must file their photographs. That, indeed, seems progress. Cuba is not satisfied with collecting every year ten dollars from all bachelors who persist in eluding the wife of women. It is moved by nobler and far-reaching ideals. It would bring together those lonely souls, male and female, who peckets through an impenetrably complex web unable to take the necessary steps which might lead to courtship and the altar. Springfield Union.

## A DANGEROUS MONTH FOR THE BABY

Mothers Always Dread the Blustering March Days

No month of the year is so dangerous to the welfare of little ones as is March—the month of quickly changing weather. One day is fine, the next cold and blustering. One day dry, the next wet and disagreeable. In spite of all precautions the little ones will take colds and these colds often lead to more serious troubles. Mothers, when the first symptoms appear—sneezing, redness of the eyes, runny nose—Baby's Own Tablets should be given at once. They will rapidly break up the cold and prevent the more serious complications.

Mothers who keep a box of Baby's Own Tablets in the home always feel safe just like having a doctor in the house. The Tablets are a gentle but thorough laxative that sweeten the stomach and regulate the bowels, thus driving out constipation and indigestion and relieving the baby of the many childhood ailments which are the direct result of a clogged condition of the bowels or of a sour stomach.

Baby's Own Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

By living on board private yachts moored on the River Thames, near Westminster, a number of Londoners escape paying rent, rates and house duty in return for a mooring fee of three guineas a year.

## Nervous and Run Down

The Least Noise Would Bother Her

Mrs. R. Burton, Oshawa, Ont., writes:—“Three years ago I was so nervous and run down I could hardly bear to have the children make noise it would bother me so.

“A friend advised me to take

**MILBURN'S HEART NERVE PILLS**

and after taking two boxes I began to feel stronger, looked better and the noise came back into my cheeks, and now I am feeling fine again.

Price 50c a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

## SKI CHAMPION

J. Nordmo, of Camrose, Alberta, wearing the smile of victory after having won the Sir Henry Thornton trophy for the highest points in the combined cross country and ski jump, Canadian Championships, held at Montreal on February 24th. — Canadian National Railway Photo.

## A Great Canadian

Prof. Shotwell Was Close Adviser Of Woodrow Wilson and One Of The Authors Of Kellogg Peace Pact

Mr. E. J. Garland and the Prime Minister deserve thanks for disclosing to Parliament recently that one of the real authors of the Kellogg Peace Pact is none other than a Canadian, Prof. Shotwell, of Columbia University. Canada has given many notable figures to the industrial, commercial and academic life of the United States. It is doubtful whether she has given anyone who has made a more distinguished contribution to the republic than Prof. Shotwell. Born in Canada and educated in Canada, Prof. Shotwell stands today as one of the most eminent figures in the whole scholastic field of the United States. His name, indeed, is known wherever international or world politics is discussed; the pity is that it is not better known among his own countrymen here in Canada.

Prof. Shotwell first attracted world attention when he became one of the close advisers of Woodrow Wilson in the sphere of foreign affairs. When the Peace Treaty of Versailles was in the making, he was in Paris; and later on, in pamphlets and numerous volumes and newspaper articles and lectures he has dealt with international questions with scholarship and more grasp of realities revealed by few of his contemporaries.

Prof. Shotwell, in fact, must be ranked among the greatest of living Canadians. The pity is that, like many another, he is an exile from the land his talents could serve so well.

## Propose Second Arctic Trip

Aviators Anxious To Reach Europe By Greenland Route

A letter has been received in Cochrane, Ontario, from Bert Hassells and his partner, Crammer, stating that it is their intention to make another aerial trip this year to establish an aerial mail route from Chicago to Stockholm, Sweden, via Greenland. These are from Rockford, Ill., who made an unsuccessful attempt to reach Europe by a northern route last year, the attempt ending when they were forced to make a landing at Greenland. This year, according to the fliers, they will attempt the trip in 500-mile relays, with refueling stations at Sault Ste. Marie, Cochrane and two located at intervals between Cochrane and Greenland. They have asked that the runway which they made use of last year in taking off from Cochrane be kept open in preparation for a start this spring.

## Sugar Beets a Paying Crop

Sugar beets proved the best-paying crop in the Taber-Barrow, Irrigation district last year, returning an average of \$69.59 per acre. Alfalfa came second, with \$25.85 per acre, and wheat third, with \$25.27. The average production per acre in the project was worth \$28.97.

Pupils in Scotland have to get through about three times as many books in the school year as London school children.

The total acreage under pasture in Canada in 1928 was 9,528,043 acres.

Minard's Liniment for Coughs and Colds.

## Wheat Marketing In Britain

Canadian Wheat Pool Inspires British Farmers To Follow Example

The example of the Canadian farmers in setting up a wheat pool for marketing their grain seems to have inspired a report issued by the British Ministry of Agriculture "On the Marketing of Wheat, Barley, and Oats, in England and Wales."

An official summary states that the report puts forward various suggestions on practical lines which, if followed up by farmers, merchants and manufacturers, working in sympathetic co-operation, should lead to an improvement in the present position of cereal marketing.

"The farmer's part," states the report, "should be to produce a more uniform quality of article in each case. This could be done by concentrating on the cultivation of predominant varieties, a movement which might be facilitated by the formation of 'pure-line' growers' associations. Steps might also be taken in the direction of standardizing the grain offered for sale."

"Farmers might consider how best to reduce drastically the number of sellers on the market, as well as to stem the present rush of sales immediately after harvest. To achieve this, however, it would seem necessary to set up some form of selling agency, supported by a system of growers' contracts."

## Change Bread To Cake

Here's the Magic Recipe

Cut slices of day-old white bread 1/2 inch thick. Trim off crusts. Cut each slice into strips 1/2 inch wide by 2 inches long.

Spread these strips on all sides with Eagle Brand Sweetened Condensed Milk, covering bread well. Roll strips in dry shredded coconut, broken very fine. Place in pan and brown very delicately on all sides under low gas flame, or toast on a fork over coals.

Delicious little coconut cakes ready-made from bread. Taste just like Angel Food cake.

Try them! This and dozens of other magic recipes are found in the Eagle Brand Cook Book "New Magic in the Kitchen." Write for your free copy to The Borden Co., Dept. BW, 140 St. Paul St. W., Montreal, mentioning this paper.

## Values Of Farm Lands

Average Value Of Farm Lands In Canada Placed At \$38 Per Acre

A recent official estimate states that the average value of the occupied farm lands of Canada as a whole including both improved and unimproved land, as well as dwelling houses, barns, stables and other farm buildings, is returned as \$38 per acre. By provinces the averages are: Prince Edward Island, \$41; Nova Scotia, \$34; New Brunswick, \$31; Quebec, \$34; Ontario, \$62; Manitoba, \$37; Saskatchewan, \$27; Alberta, \$28; British Columbia, \$30. The average values in 1928 of orchard and fruit lands, including buildings, etc., in the principal fruit-growing districts are estimated to be: Nova Scotia, \$116; Ontario, \$151; British Columbia, \$315.

Hard and soft corn both yield to Holloway's Corn Remover, which is entirely safe to use, certain and satisfactory in its action.

## Western Progress

The thriving city of Regina established a notable record in 1928, in attracting new industries. During the last past year 12 important industrial concerns located in Regina. They are said to have expended about \$5,000,000 in sites, buildings and equipment, and they will employ well on to 2,000 men. Housing accommodation was built last year for 1,000 families, and building has not yet caught up to the demand.

A cast off railroad locomotive with its wheels removed, heats a Norwich, Connecticut passenger station. It performs efficiently, supplying heat to the train shed, station and cars in the yard as required.

## Take Daylight From Air

Reproduction Of Light Said To Be Next Wonder

A radio aerial draws radio waves out of the air. Radio treats essentially with sound. Absorption and reproduction of light, by a method strikingly similar to radio is likely to be next. R. T. Gee, London, Ont., inventor, president of the R. T. Gee Company, Limited, manufacturer of electric light bulbs, is the discoverer. The process, he states, is to be soon available for general use. When it is introduced, it is stated in scientific circles, it will revolutionize illumination, which is today chiefly controlled by electricity. For, in addition to drawing energy out of the air and reproducing it, Mr. Gee's method provides for the storage of such energy until it is needed. This means, it is explained, that the aerials at work in the daytime will not only absorb but also store sunlight for reproduction at night.

Rob It In For Lame Back.—Brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

Tested Rocket Sled

A "rocket sled" was tried out at the Schleissheim aviation grounds by Max Valter, inventor of several rocket vehicles. The sled weighs 246 pounds and can be equipped with eight rockets. Valter, using only two rockets, made fine speed on level ground. Spectators tried to visualize the speed that could be made down a snowy slope under the impetus of the rockets, but gave up the attempt before reaching definite conclusions.

## Keep Your Health

TO-NIGHT TRY

## Minard's Liniment

for that cold and tired feeling

Get Well—Keep Well.

## KILL FLU

by using the OLD RELIABLE!

Minard's Liniment Co., Ltd., Yarmouth, N.S.

Better To Keep Busy

Brooding over trouble is like surrounding oneself with a fog; it magnifies all objects seen through it. Occupation of the mind prevents this. Any hard work, manual work even, gives the mind other matters of concern, and also tires the body so as to ensure sleep.

## Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has been recommended for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

## THE CRIMSON WEST

ALEX. PHILIP

Published by Special Arrangement With Thomas Allen Publisher, Toronto, Ont.

### CHAPTER XVI.—Continued

From up the mountainside came a drumming roar and the rending crash of trees as the fire undermined their roots. Sparks from burning tree-tops crossed the fire-break and started other fires. To combat these, water had to be carried up the steep hillside in pails. Andy was among those delegated to this arduous task. For hours he staggered from stream to hill and back again with a brimming pail in either hand. Scorching by sun and fire, the perspiration streaming down his face and stinging his eyes, the little hero stuck gamely to his task.

"I feel on this 'ere job 'as a cook," he grumbled, "strike as a blinlin' water-spout. Noto me pink, if the water I've carried today was sprinkled in 'ell the devil'd be out of a job. Oh, well," he added resignedly as he filled his pails and turned to again ascend the hill, "as Methusalem said, 'Every little bit helps.' These two buckets make exactly four million, two hundred and six gallons that I've carried this day." At this instant his feet caught in a root to send him sprawling on his face, rolling down the mossy hillside, the pails clattering after him. He lay where he had fallen, flat on his back, with arms outstretched. "There," he soliloquized, "that was the wisest of straw that broke the elephant's back. To 'ell with the fire. Let the blighter burn."

Wilkinson came wearily down the hill. His face was blackened and blistered, his hat gone, and his shirt a network from holes burned through the cloth by flying sparks. He sprawled on all fours by the stream, drank sparingly, then plunged his face in the cooling waters.

"Elio, Wilkie!" shouted Andy, "ow would you like to 'ave a cold bottle of beer?"

Wilkinson asked a stone throne, looking and glared at his tormentor. "Men have been killed for less," he growled huskily.

"I say, Wilkie," grinned Andy, "these forestry jobs are a snap. Do you 'ave the nerve to collect a salary?"

The district ranger was too tired for speech. His swollen face puckered in a smile and he passed on up the hill, and Andy came stiffly to his feet and resumed his never-ending task.

Connie brought reports that the fire was being held on the north and east. The fire-break on the south held, but spot fires were kept in check only by the almost superhuman efforts of the fire-fighters.

Forest fires reach the peak of their intensity while the sun is hottest. With darkness the wind subsides,

and, especially in the mountains the heavy dew is a never-failing help.

The sun, showing blood-red through the smoke, now sank behind the hills, and a blessed coolness filled the air. The fire smouldered along the fire-break, but the dreaded sparks were not flying. The trembling roar diminished to a steady crackling when fallen trees were being steadily consumed.

The fire-fighters, their shoulders drooping, and wavering from sheer weakness, plodded down the hill for well-earned food and rest.

"You'll have to be at it again at daylight," said Wilkinson grimly. They nodded a tired assent. Wilkinson and Donald with twelve men patrolled the fire area throughout the night.

The next morning broke sultry in a dull haze. As the first streaks of light heralded the coming of the new day, the fire-fighters again took up their posts. Men from the other mill arrived, and another day of battle with the fire demon was begun. An attempt was made to check it on the west front, high up the mountainside, where the fire had crept through the night to a small level plateau. At ten o'clock the wind came suddenly, and with it the fire broke through on the south-west corner with a deafening roar and rushed through a stand of dead trees with ever-increasing speed.

Donald shouted a quick cry of warning to the men who were in danger of being cut off by this break. They came on the double quick just in time, as a lurid wall of flame shot up the hill over the path they had traversed.

"Are the men all out?" questioned Donald.

"Andy isn't here!" said one of the men excitedly.

Donald seized the speaker's arm. "Was Andy with you?"

The man nodded.

Donald's face set in grim lines. Whistling quickly, he ran straight toward the line of fire. With a bound, Connie was on her horse and after him at swift trot. As he neared the screen of smoke, Pegasus changed his gait to that of a mad runaway, and with the small rider lying prone on his bare back disappeared from view.

At this spot the fire had spent its fury in the first mad rush, but a heavy smoke welled up from the charred ground. Terror possessed the horse, but the calm voice of his mistress urged him on. Crismon embers showered about her. Scorching heat fanned her face as if the doors of a blast furnace had been opened. A blazing branch fell with a rushing sound, barely missing the horse's head. Sharp reports from the treetops made the plucky cayuse shy in a panic of fear.

Filled with apprehension, the crowd of fire-fighters stared with tense anxiety into the drifting smoke. Then a glad cheer burst from them as horse and rider emerged. Andy clinging to Connie's stirrup and Donald swaying drunkenly in the rear. Ready hands held water to

Andy's parched lips and bathed his hot face as he lay panting on the ground. He sat up with an effort and looked about him. "Where's Connie?" he asked. But Connie had stoic quietly from the scene.

By mid-afternoon the main body of the fire was apparently under control, but the persistent spot-fires kept the entire crew engaged. Huge cottonwood, standing just within the fire-break, was the chief of fender. Sparks from its lofty blazing top were floated by the breeze to land on the dry ground, starting innumerable fires.

"That tree will have to come down or we will be fighting spot fires indefinitely," said Wilkinson.

Silence fell. Everyone of those lumber-jacks knew the danger attached to the falling of a rotten blazing tree. In sound timber the skilled "faller" can cut the scarf and drive the falling-wedge to lay the tree within six inches of the desired spot. With a hollow tree the task is much more difficult, as in the soft, decayed pulp the wedge may not provide sufficient leverage to swing the enormous weight, and the tree may crash from any angle.

Men working at the butt of a burning tree, too, are exposed to the fall of branches. Every small bough, hurtling from the dizzy height of a lordly cottonwood or fir, will break a man's limbs.

Wilkinson picked up a falling saw. "Who will go with me?" he called.

Tillis stepped forward with wedge and hammer.

"No! don't!" said little Blackie. "Wilkinson here has a wife and kid, an' Jack has brains enough to be our boss. Me and Hoop-la ain't got neither, we're just a couple rough-necks. Whadda you say, Hoop-la?"

"Ye betcha," came vigorously from Blackie's pad.

Two men were sent with them to assist in clearing a space at the foot of the big snag. A few minutes later the twang of the cross-cut, mingled with Blackie's happy song, sounded above the crackling of the fire.

Wilkinson pointed to the southern sky, where heavy nimbus clouds were massing. "All last! The blessed rain is coming!" he cried in a voice of thankfulness.

A stronger gust swept through the valley to send a surge of flame from the giant cottonwood's topmost branches. There was a sharp cry of warning as a limb broke off with a splinter crash and came rearing to the ground, sending up a swirl of dust. A strangled cry of pain, a dull pain in its intensity, cut the air. "Blackie's hit," screamed Hoop-la. Blackie lay on his face, his clothing airtight, pinned down by the shattered limb. With a heave of powerful shoulders Hoop-la flung the crushing weight aside, and his big hands quickly smothered the fire in the clothing of his fallen comrade. Gently he raised the stricken man in his arms and bore him beyond the range of fire.

"Blackie! Oh, Blackie! are you all right?" he questioned fearfully as he looked down at the quiet face that held the grey pallor of death.

"Call the doctor and bring a stretcher," sharply ordered Wilkinson.

(To Be Continued.)

### Canada's Chinese Population

Last Registration Gave Total Number 55,706

According to reports tabled in the House of Commons, three Chinese immigrants were admitted to Canada during the fiscal year 1927-28, two of whom were women. Two students coming to attend Canadian universities were admitted as non-immigrants. Eleven Chinese were deported during the year.

The registration carried on during 1923-24 shows a Chinese population in Canada of approximately 55,706. Of this number, 48,305 were males, 1,502 females, and 6,899 children under 18 years of age. Of the total British Columbia had 31,116 Chinese residents.

The number of Japanese entering Canada in 1927 was 511, and in 1928, 535. Of the total for two years, 273 were adult males, 557 adult females, and 216 children under 18 years of age.

### Dump Valves For Passengers

They have long had dump valves in airplanes for gasoline, but now they have got one for passengers. Floyd Smith demonstrated the device at Mercer airport, tilting the passenger seat with a lever and letting a 150-pound dummy passenger hurtle down from a height of 1,500 feet. The dummy's parachute opened in one and four-fifths second, and the dummy floated safely to earth.

It is estimated that only 54 per cent. of Florida's white population is foreign born.

W. N. U. 177

### Up-To-Date Airport

Municipal Field At Oakland, California, Has Every Modern Convenience

How many people realize that parking space for airplanes is added in the same way as parking space for automobiles, in the down town areas of big cities. To take Oakland Municipal Airport at Oakland, California, as an example. Over night ground rental costs one dollar per plane. Hangar space less than 1,000 square feet, costs two dollars a day or forty dollars a month, while quotations for larger space up to an area over 2,000 square feet are charged at four dollars a day or seventy-five dollars a month.

One can get a plane washed just as a car is washed for \$1.25 an hour. Mechanics are available at this airport for two dollars an hour during regular working hours and three dollars an hour during other periods.

If you arrived at this airport by plane and wanted to stay there during the night, you can get a bunk for a dollar a night or fifteen dollars a month. There are at this airport conveniences found at few other airports and that of sleeping quarters is one of them.

Oakland airport which is operated in connection with the seaport of the city, has had a speed boat channel from San Leandro Bay, an arm of San Francisco Bay, dredged direct to hangars. This channel is 150 feet wide, and 16 feet deep, and allows for the landing of seaplanes at the same field that serves land planes. It is a matter of 11 miles from the seaplane landing to the San Francisco ferry post office.

A restaurant to accommodate 150 people was recently completed at the field. There is a coffee shop, a dining room with full view of the field and a banquet room housed in this building, in addition to the usual news stand, tobacco shop, soda fountain and souvenir booth, which one is accustomed to find at any railway station.

### Western Horse Shipments

Twenty-five Thousand Sent To Eastern Canada Last Year

Western horses to the number of 25,000 were shipped from the prairies to Eastern Canada last year. Most of these horses came from Alberta and Saskatchewan, and were disposed of principally in Ontario and Quebec although some were shipped as far as Prince Edward Island. The shipments varied from heavy draught animals to light range stock and about 5 per cent. were unbroken. A carload of these unbroken range horses of Berthoud and Belgian breeds was shipped into Paisley, Ont., recently and sold at public auction, realizing an average price of \$71 for the 21 head.

Traveller (at country railway station): "Do the fast trains ever stop here?"

Porter: "Yes, we had a smash-up here once."

-take it!  
It's Safe

The nurse tells you to take Aspirin because she knows that it is safe. Doctors have told her so. It has no effect on the heart, so take it to stop a headache or check a cold. For almost instant relief of neuralgia, neuritis, rheumatism; even lumbago. But be sure it's Bayer's genuine Aspirin. At druggists, with proven directions for its many uses.

Aspirin is a Trademark Registered in Canada

### Little Helps For This Week

"In God have I put my trust; I will not be afraid." Psalm lvi. 4. Oh, heart of mine, we shouldn't worry so! What we've missed of calm we couldn't have. What we've met of stormy pain, of sorrow's driving rain, we can better meet again. If it blow.

We have erred in that dark hour When we have known, When our tears fell with the shower All alone. Were not shine and shadow blent, As the gracious Master meant? Let us temper our content With His own.

For we know not every morrow Can be sad, So, forgetting all the sorrow Let us fold away our fears, And put by our foolish tears, And through all the coming years Just be glad.

—James Whitcomb Reilly  
God writes straight on crooked lines.—Spanish Proverb.

Taken Without Question  
There are times when we question the pronouncements of the learned, but one of the things we have decided not to prove for ourselves is the recent statement of a prominent naturalist that lions are near-sighted.

Shirts are being worn by constantly increasing numbers of Chinese.

### "Robot" For Nine Years

Expert Chess Player Fooled Patrons Of New York Museum

The secret of perhaps the strangest "robot" ever exhibited in America has been revealed with the death of Peter J. Hill. Thirty years ago in New York city, the proprietors of a dime museum astonished their customers with an "automaton chess player." Thousands, including many internationally known players, tried in vain to defeat the "mechanical man." The robot in reality was Hill, masked and disguised. An expert chess player, he sat in the museum for nine years, shifting the pawns on board with jerky, mechanical movements, maintaining silence and keeping his secret from those with whom he played.

Whales have the largest brains of all mammals, the largest on record weighing 7,000 grams.

### CRUMBLY TEETH

Help your children to have sturdy bodies, sound bones and strong teeth. Give them

**Scott's Emulsion**

rich in vitamins. It serves the needs of childhood equally as well as it does grown people.

## WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, durable and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask in 100% Sunlight Send for booklet "WINDOLITE"

Distributors: JOHN A. CHANTLER & CO., LTD.

## Simple Precautions Against FLU Sore Throat — The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease-breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

A new Spring Number by the Mercury people. Made from fine gauze Pure-thread Silk. Knit to fit, seamless throughout. 4 ply Silk Lisle foot, toe and heel, 4in. garter welt. A stocking of lovely appearance. Good light shades, Wonderful Value.

Per Pair ..... \$1.00

#### WOMEN'S LISLE HOSE —

A well known Branded Hose for everyday or dress. Made from fine 2 ply Silk Lisle yarns, highly mercerized, with four ply heel and toe. Lisle to the top. Wide tops and fashioned ankles. Black and a big range of shades.

### Main Street

Mr. Clark is holding an auction sale at his farm Wednesday, April 3rd.

A son arrived at the home of Mr. & Mrs. C. Pile, Friday, March 22nd.

Mr. Andy Turnbull is spending the week end in Edmonton.

Mr. N. D. McMillan, of Bremner, spent the holidays with his brother Mack at Irma.

Irma Ladies Aid met at the home of Mrs. Simmons Sr., Thursday afternoon.

Miss Grace Love left Thursday night to spend the holidays in Edmonton.

Mr. L. Pongo has moved his blacksmith tools to his new shop south of the Irma Machine shop.

Mr. Grover Arnold has been in Regina for the past two weeks but expects to return home for Easter.

Mr. Jim Pond has secured a new Frigid Air cooler for the Ice Cream Parlor and intends opening it again the first of April.

Jack Fletcher is busy these days selling Formaldehyde for treating the seed the farmers are preparing to sow.

Mr. and Mrs. J. C. McLean motored to Edmonton Wednesday, to get their daughter Miss Jean who has been attending the Normal at Edmonton and who expects to accompany her parents home for the holidays.

Mr. E. G. Wood of Portage La Prairie, Manitoba, has been visiting his sister-in-law Mrs. Geo. Hiperson, and while here Mr. Wood has purchased the Mitchell farm on Buffalo Coulee which consisted of the N.W. quarter of Section 36-47-8 and the N.E. quarter of Section 26 in the same township.

Mr. Wood intends sending a man here from Portage to put in the crop and look after his new farm.

Tuesday Mr. Jas. Walker met with a painful accident near Kinsella when the team he was driving ran away throwing him out of the wagon. Dr. Murray of Irma was called and found Mr. Walker was suffering with a badly crushed ankle and a deep cut on the head.

Mr. Walker was left at Kinsella for a few days till he will be able to be moved to his home with his brother Mr. William Walker in the Roseberry district.

A supreme court judge in Mississippi has ruled that a passenger in an automobile has no redress in an accident if he knowingly rides with an intoxicated driver.

### "NEWS TO ME" SAYS

#### PREMIER OF COALITION

Absolute denial of any knowledge of a coalition "which may be consummated within the next three months" between the United Farmers of Alberta and the Conservative party, was given on Saturday by Premier J. E. Brownlee, following his being informed of the publication in a city paper on Friday of rumors to this effect.

The Premier also denied all knowledge of his own reported impending resignation, stating that as the one most vitally concerned, it would have been reasonable for him to have some information on this subject at least.

In addition to other rumors the story in question rumored the succession to the Premiership of Hon. O. L. McPherson, minister of public works; the resignation as Conservative leader of A. A. McGillivray, K.C. Conservative leader; a Conservative convention called for some time in the summer and an election in 1930.

"It's new to me," was Premier Brownlee's first comment on being informed of the supposed coalition and his own resignation.

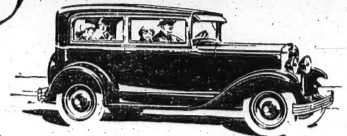

Asked if there was a possibility of a coalition between the parties mentioned, in the future, he declined to comment, stating that he was no prophet.

A boxing match to go ten rounds has been arranged between Curly Kid of Irma, and Art Bryan Prudholme, of Grouard, to be held at Wainwright, on Wednesday, April 3rd, commencing at 8:30 P.M. Both boys are in good shape and have good records as boxers and the bout is being looked forward to as going to be one of the best ever staged in the oil town. Their will be four preliminaries. Prices range from \$1.25 to \$2.00 including tax.

Women are peculiar. A girl in a neighboring town, while playing post office at a party recently, yelled, shrieked and howled, ran behind a door, scratched the young man's face in seven places, upset a lamp, kicked over a piano stool, and when he finally kissed her on the tip of her ear she fainted dead away and said she could never look anybody in the face again. They led the bashful, modest, gentle, lovely, sobbing creature home, and the next day she ran away with a married lightning rod agent who had a hair lip and too children.

## Six-Cylinder Smoothness

with increased speed and acceleration!

—a Six in the price range of the four!

A TYPE of performance entirely new in a low-priced automobile—that's what you experience when you drive the new Chevrolet Six!

Marvelous six-cylinder smoothness throughout the entire speed range! A freedom from vibration and rumble that makes driving and riding a constant delight! Increased speed and acceleration. More power for hills and heavy going!

You are cordially invited to come in for a demonstration—for until you actually sit at the wheel, you can never know what Chevrolet and General Motors' engineers have achieved in the new Chevrolet six-cylinder valve-in-head engine.
